Washington, IN 47501

RE: Southern Indiana Development Commission's 2014 budget request

Dear Ms. Doades:

In the past, the Southern Indiana Development Commission has worked with Daviess County on projects including economic development, community development, housing, transit and transportation. SIDC is looking forward to continuing this relationship and the financial support of the Daviess County Commissioners.

As you prepare the 2014 County budget, SIDC is requesting inclusion in the Commissioners' budget for \$7,625. SIDC will ask for the same amount until the 2020 census is released eight years from now. The County funds are needed to meet matching requirements and program costs for programs that benefit Daviess County. SIDC is very aware of the fiscal concerns of all units of government in Indiana and is working to limit budget requests and SIDC pays the local match requirements for the County for the INDOT rural planning program.

If you have any questions or need additional information, please contact me at 812-295-3707 or gejones@sidc.cc.

Your consideration of this request is greatly appreciated. SIDC is looking forward to continuing to work for Daviess County in 2014.

Sincerely,

Greg E. Jones
Executive Director
