

Knox County Bridge 45 Rehabilitation & Repair

FEBRUARY 2017

Project Description:

The project entails the rehabilitation and repair of Knox County Indiana Bridge 45 located on Washington Road over the White River, 5.5 miles northwest of the town of Washington. Bridge 45 will have various portions of structural steel either repaired or replaced. Abutments and piers will have some repair work. Knox County end of bridge will be raised approximately 2.5 feet. New roadway will be constructed approaching each end of bridge, 422 feet on Knox County end and 652 feet on Daviess County end. Bridge will be cleaned and painted in a gray finish.

Current Operations:

There has not been any work completed during the month of February 2017.

% of Contract Complete to Date: 60.36% (Monetary Basis)
