FOR IMMEDIATE RELEASE

5/13/2020

4:30 PM

DAVIESS COUNTY HEALTH DEPARTMENT REPORTS SINCE THE FIRST CASE OF COVID-19 WAS REPORTED IN APRIL, THE TOTAL DEATHS REMAIN AT SEVENTEEN (17) AND THE TOTAL OF CONFIRMED POSITIVE CASES ARE AT 60.

The Daviess County Health Department announces as of the time of this release, since the first case of COVID-19 was reported in April, the total deaths remain at seventeen (17) and the total confirmed positive cases are at 60 in Daviess County.

Of those 60 cases, 35 have fully recovered. Since May 1st, Daviess County has seen ten (10) new cases. Those 10 people have been placed in quarantine. Those who have had direct contact with all positive cases have been notified by our nursing staff.

Our department will not be providing daily updates as we have in the past, but any pertinent information will be distributed to the public as soon as possible. We will continue to update the public on positive case numbers and deaths periodically throughout each week.

As we move through stage two of the “Back on Track Indiana” guidance, we hope everyone continues to follow social distancing guidelines and protects yourself and those who are at the highest risk: our elderly population and/or those with pre-existing health conditions.
