(Reapply Chip's over existing Chip Seal Application)

Total Cost for Applicant = \$ _____

Terms and Conditions:

The County will grade the county road and add rock if necessary. Residents will be responsible for marking the beginning and ending points of the area to be treated. Applications will not be made if the area is not clearly marked. After the material has been applied, the resident is responsible for the maintenance of this section. When holes develop in the surface, the residents must patch the road with asphalt cold mix material (APM). If the resident does not patch the road, the county will notify the resident that if the road is not patched within two weeks it will be graded up and the surface restored and maintained back to a gravel road.

If Calcium Chloride is used, the County Highway reserves the right to keep the area graded as needed when holes develop in the surface and will not reapply additional Calcium Chloride. Calcium Chloride is a yearly application and Calcium Chloride spots will be graded up and no longer maintained in and around the month of November of each calendar year.

NO WARRANTY IS EXPRESSED OR IMPLIED.

I have read and agree to the terms and conditions:
